

We are on a Mission!

Candy Brower, one of our Principals, is heading up our Mission. For several years, Candy has led the Johnson O'Connor Feron & Carucci recycling program where she redeems the recycled cans, and donates the funds to the Buy a Bed program for the Mission of Deeds in Reading, Massachusetts. The Mission of Deeds is a great organization that collects furniture and household goods for people who can't afford to buy them. The demand for client beds far exceeds the donations they receive, so a few years ago they started a "Buy a Bed" program - \$90 buys a bed, including mattress, box springs and frame. And with their beds the clients also receive linens and blankets or comforters.

Through the recycling program here at Johnson O'Connor Feron & Carucci, we are proud to report that we have been able to purchase about half a dozen beds so far.

It is a wonderful cause which has been received with overwhelming gratitude by the recipients, some of whom have never slept on real beds before.

So, don't throw away that recyclable can or bottle - those \$.05 redemption amounts add up and turn themselves into warm, cozy beds.

For more information on the Mission of Deeds please visit their website at:
